

NEW TRADITIONAL

Lafayette

For this ground up project in one of Lafayette's most prized neighborhoods, we brought an East Coast sensibility to this West Coast residence. Honoring the client's love of classical interiors, we layered the traditional architecture with a crisp contrast of saturated colors, clean moldings and refined white marble. In the living room, tailored furnishings are punctuated by modern accents, bespoke draperies and jewelry like sconces. Built-in custom cabinetry, lasting finishes and indoor/outdoor fabrics were used throughout to create a fresh, elegant yet livable home for this active family of five.
